Kiela international hairdressing salon furniture catalogue 2014-2015

Kiela

Kiela has been a leading Dutch supplier and producer of furniture for decades specializing in modern hairdressing design furniture. We design and manufacture styling chairs, styling units, wash units, working stools, waiting benches, trolleys and accessories. Our stylish, high quality furniture is exported to numerous countries across the world. Kiela's mission is to improve hairdressers' working environments by providing them with well thought through products and concepts. We always bear in mind that our products need to be functional, reliable and yet stylish.

We develop and manufacture almost all our furnishings ourselves. This not only allows us to produce our furniture according to high quality standards, but also to be able to supply our furniture quickly, reliably and in a wide range of styles. And importantly, our furniture can be delivered for many years to come! This means we're a unique, dedicated and flexible company. We are proud of our good reputation.

our products

We put our vision into practice by creating attractive, functional and reliable products. All our products can be found in this catalogue. Our products are characterized by the following.

quality

Quality has always been one of Kiela's absolute priorities. Most of the manufacturing and assembly work is carried out at our own factory. This means that we can continually monitor and inspect our products, from draft to finished product. And of course we buy at competitive prices from selected suppliers in order to meet our high quality requirements. We strive for 100% customer satisfaction. This means that, despite our best efforts, should anything be less than satisfactory, we will do everything we can to find a solution. We give a 5 year guarantee on the construction of our furniture, and a 3 year guarantee on electrical components.

ergonomics and comfort

We are one of the few manufacturers that meet the policy regulations of the hairdressing industry of the Netherlands' occupational health and safety board for our entire collection. These standards that govern the equipping of salons ensure the best possible working environment for the salon's staff, thereby reducing absenteeism as far as possible. Our clients can depend on us for reliable advice. Ergonomics and comfort have always been Kiela's starting point. After all, it is not only the furniture that has to last for years in a salon, but the staff needs to be able to work comfortably too.

sustainability

At Kiela, sustainability is an ingrained philosophy that results in the striving for environmental awareness and responsible business practices. Our furniture is made to last for years and that naturally benefits our planet! We mostly use semi-finished products from leading companies in the Netherlands and neighbouring countries. This allows us to monitor aspects such as environmental laws and health and safety standards. Furthermore, environmentally unfriendly transport is kept to a minimum. Kiela sees itself as a manufacturer that is part of society. Not only for now, but in the future too.

design

Design is all! We know like no other that the salon is the hairdresser's flagship and must reflect the style and personality of the hairdresser and the times. This is why we are constantly working on designing innovative furniture. With our ingenious designs from the Netherlands, we are part of Dutch Design. Well thought out, distinctive design, but with the right 'look and feel'. Our ambitious designers know the market through and through and have the ability to see through the eyes of both hairdresser and customer, without making any concessions to comfort or quality.

styling chairs

Our collection has a wide range of styling chairs, both in terms of qualities as well as in styling. Nevertheless, this is only an impression of the various possibilities that we offer as a manufacturer of high quality salon furniture. All our chairs can be upholstered in a considerable range of colours and patterns. There is also a wide choice of supports such as a stainless steel disc base and an aluminium star base.

All our chairs meet the occupational health and safety standards for working healthily in the salon. Furthermore, all our chairs have a five year Kiela guarantee on the construction, three years on any electrical components used and these can be supplied for at least five years after production.

Shift

The Shift is a distinctive design chair. The modern, clear square shape of the fabric excellently matches the subtle detailing of the tubular arm rest. It lends the chair an exciting contrast.

The stainless steel arm rest is fitted with a plastic support that increases comfort.

Shift anniversary

The familiar Shift, however this time in a festive look on the occasion of the 75th anniversary of Kiela in 2014. For both the upholstery and the edging you can make a choice from Kiela Fabrics.

Macho

The stylish Macho chair is recognizable for its obvious comfort and grandeur. It is reminiscent of the lobby of a chic hotel. Its clean lines give the chair the utmost modern appearance, making it perfectly suitable for the contemporary salon. The Macho is timeless.

Brother & Sister family

Big Brother

The Brother and Sister range is a family of chairs, each of which has its own arm rest. However, they all have the same high level of comfort. The clear lines of the seat can be found in all models.

Big Brother

Fully padded, closed arm rest.

Brother

Brother

Stainless steel tubular arm rest with plastic arm rest pads.

- The Wellness washing unit matches the Brother family of designs (see p. 35).

Sister

Sister

Chrome arm rest with short padded arm rest pads.

Sister Deluxe

Sister Deluxe

Chrome arm rest with fully covered arm rest pads.

- The Wellness washing unit matches the Sister family of designs (see p. 34).

Park

RAL 9005 Schwarz

K445 Eiche Milano

K465 Ahorn
After Eight

The combination of materials gives the Park styling chair a feeling of luxury. There is a wide choice in artificial leather for the fabric parts of the chair. Similarly, there are several choices of colour and patterns for the arm rests. Each chair is unique.

Vibe

A design chair with retro elements. A subtle detail is the matt aluminium connecting piece between the chair back and the seat.

U-Box

Cubist design without compromising on comfort. This is the particular quality of this design chair with its distinctive appearance.

- The U-Box is available in a number of versions: with a fixed low back, a fixed high back, and an adjustable high back.

Bozz

The Bozz is a versatile chair that suits many interiors. With its slightly curved lines, this chair is both modern and timeless. This luxury chair is completely upholstered and is very comfortable.

- Bozz is available with or without adjustable back.

Club Zero

Completely different than the others. With its curved lines, Club Zero is a futuristic design. Production techniques from the automotive industry were used for the headrest and sides. Other than that, the same high quality plastics and varnish finishing are used.

- This chair is available in pearly white, silver grey and anthracite. The Club Zero is available with or without adjustable back.

Silvergrey

Pearl

Antracite

Zoom

Clean lines and retro influences characterize the appearance of the Zoom and lend the chair its own distinctive character.

- The armrest is available in six types of wood or in a black, comfortable plastic.

Esche Gefärbt

Buche Gefärbt

Mahogani
Gefärbt

Zebrano

Nussbaum

Wenge

Diva

Diva is an elegant lady who knows how to play her trump card perfectly.
Graceful and feminine, while retaining her character.

Sharp

The architectural design of the Sharp gives the chair its charisma. Cleanly designed fabric sections are attached by aluminium discs. These are not only functional, but also give it its attractive appearance.

Tempo

The Tempo combines curved and geometrical shapes to create an exciting whole that makes no compromises on functionality. The stainless steel tubing makes the back almost feel as if it is floating.

- The Tempo is available with a tilting back.

GoGo

The GoGo is a modern chair with a retro feel. An attractive, slim tubular frame inspired by classic chairs is a pronounced part of the design. The tubular frame is fitted with comfortable plastic armrests.

- The GoGo is available with a tilting back.

Urban

The Urban is recognizable for its modern design and originality. It has an innovative tilting mechanism for the backrest. This is attached to the armrests in a subtle and unique manner.

The Urban is available with a tilting back.

- This works using a mechanism at the ends of the armrests.

Palconette

Are you looking for a daring identity for your salon? Then we recommend the Palconette: the armchair is a singularly designed hairdressing chair with a strong personality.

- The Palconette is available with or without adjustable back.

Score

The Score is a functional, comfortable chair with a good price quality ratio. Like the other chairs, the Score is available in different coloured artificial leather.

- The Score is available with a tilting backrest that follows the movement of the back while at the same time supporting it.

Symphony

When you look at the Symphony, you think about refinement and comfortable seating. For comfort, the high, wide backrest, shaped seat and padded armrests make the Symphony unmatched. This is why the chair's upperpart is often combined with our wash units.

- The Symphony is available with adjustable back.

Prelude 2

Bring an authentic retro feel back into the salon with the Prelude 2. This classic chair has been a successful part of the range for decades, proving its timelessness. The Prelude 2 is highly comfortable. A special feature is the decorative stitching on the back and seat. A particularly charming chair.

- The Prelude 2 is available with adjustable back.

Spido

children's styling chair

The Spido is a modern design children's styling chair that complements the other chairs in our programme. The fabric parts can be supplied in any colour from our artificial leather programme. The chair is height adjustable for the comfort of the hairdresser.

U-Box Barber

barber's chair

The distinctive U-Box Barber is the successful U-Box concept's barber's chair. As a standard, this modern barber's chair is equipped with a height adjustable headrest, an adjustable back, a footrest and an extra heavy duty hydraulic pump. The chair's mechanism is tested and is guaranteed to last for years.

Club Zero Barber

barber's chair

This gentleman's version of the futuristic Club Zero really stands out. The Club Zero Barber's curved shape and distinctive combination of materials that use colour sprayed plastics and fabrics make it a prominent part of the salon.

As a standard, this barber's chair is equipped with a height adjustable headrest, an adjustable back, a footrest and an extra heavy duty hydraulic pump. The plastic parts are available in three standard colours: pearly white, silver grey and anthracite.

Palco Barber

barber's chair

The Palco Barber is the Palco programme's barber's chair.

It thus has the same qualities as the Palconette styling chair: eye-catching design, a rich use of materials, and great comfort. Wood details lend this modern chair a natural 'touch'.

As behaves a barber's chair, the Palco Barber is supplied with a footrest, an adjustable back and a headrest. The beech wood elements are available in natural, ash and mahogany tints.

Falcon Barber

barber's chair

A timeless barber's chair, comes standard with adjustable headrest and adjustable back with a foot rest that moves with the chair.

The Falcon Barber is a barber's chair that is just as comfortable and solid as it appears. Solid and luxurious at the same time.

wash units

Several developments have been made in the area of wash units. While the customer wants to be washed comfortably at the wash unit, the hairdresser needs to work without physical strain. This is why Kiela has developed a unique height adjustable mechanism for the wash basin which allows the hairdresser to quickly adjust the basin to the customer's neck. An electrically operated adjustable leg support enhances comfort during washing. For total wellness an option is a built-in massage system for several wash units.

To bring uniformity in the styling concept of the salon our design team has given special attention to make wash units and chairs a perfect match.

Wellness

The Wellness wash unit programme is highly versatile given its many options and styling choices. At the programme's core is minimalism, without compromising on comfort or quality. The moulded seat matches the Brother Sister concept and offers good body support. The tilting wash basin ensures that every customer can be washed comfortably.

Wellness Sister Deluxe

Wellness Brother

Wellness Big Brother

Wellness Sister

versions

The arm rests of the upper parts make each of the Wellness Brother, Big Brother, Sister and Sister DeLuxe wash units different. There is also a version without arm rests: the Wellness Sofa. This also has a moulded seat made out of one piece with a continuous lower leg rest so that customers can be washed while lying down. The stretched shape of this washing unit thereby enhances the luxury lounge character.

The other four Wellness choices come with optional electrically adjusted lower leg support, controlled by a remote control.

Wellness Sofa

Wellness Wood

colour and finish

The standard Wellness wash unit model casing is a stainless steel frame combined with black or white plexiglass side panels. Optional with the Wellness Wood casing is a hard plastic (HPL) wood design of choice from the programme. The ceramic wash basin is available in white and black. All upholstered parts are supplied in the colours from our artificial leather collection.

Aquarelax

massage option

The Aquarelax is not only an attractive example of modern design. The wash unit is both ergonomically and technically well thought-out for hairdresser and customer.

The wash unit has an adjustable, slanted stand, giving the hairdresser more leg room during treatment.

For practicality, the shower hose is tucked away in the basin.

Aquarelax XL

versions

An electrically operated lower leg support gives greater comfort during washing when lying down. This is optional. A fixed leg support is also an option. The unit is equipped with a thermostat.

colour and finish

The casing of the wash unit stand and the ceramic basin is available in the standard colours of white and black. The removable tops on the back of the stand are made of stainless steel. The chair can be upholstered in the artificial leather colour options from the range.

massage (optional)

The option of greater comfort through fitting a high quality massage system. However, this is always supplied in combination with the electrically operated lower leg support. Controlling the massage programme can be done using the supplied remote control.

Aquacolumn

The Aquacolumn is space saving due to its modest size and the absence of a fixed upper chair part. A mobile cutting chair can be placed at the wash unit. Tested technology gives the basin an adjustment range of 20 cm. The hard wearing basin, available in white or black, and the corrosion resistant stainless steel cover ensure long lasting durability. The thermostat and the built-in shower hose are supplied as standard.

Aquascoop Lounge

The Aquascoop is characterised by the slim design of its casing in combination with the upper part of the chair of choice. The wash unit is produced with a unique step-free, height adjustable system for the basin. The slanted column gives hairdressers plenty of space to move their legs and feet freely. All metal parts which come into contact with water have been corrosion treated. Rusting will thus in effect not occur.

Aquascoop

combinations

versions

The Aquascoop can be combined with almost any chair upper parts with adjustable back from our range of chairs. On the facing page is a specially designed version: the Aquascoop Lounge. The chair can be tilted back and the adjustable lower leg support is electrically operated.

colour and finish

The metal parts of the wash unit are available in metallic black or silver grey. The plastic tops at the back of the wash unit are made of high quality black plastic. The ceramic wash basin is available in white and black.

Aquascoop Bozz

Aquascoop Symphony

Aquascoop Sister

Aquascoop U-Box

Aquascoop Brother

Aquascoop Score

Aquascoop Tempo

Aquascoop GoGo-Luxe

Aquaplus Lounge

The Aquaplus wash unit can be perfectly combined with the chair collection. As most of the upper parts can be attached to the frame of the Aquaplus, unity is created with the other chairs in the salon. The wash unit may be a neutral design, but it is produced from high quality materials. The stainless steel tops at the back and the special corrosion resistant treatment testify to this. As the wash basin can be tilted, it fits the neck snugly.

Aquaplus Score

styling units

Styling units are essential for the image of the salon. But they need to be practical too. Apart from high quality mirror, our styling units are always equipped with shelving. A sturdy foot rest is usually standard, but, just like the hairdryer holder, is optional. The salon reflects the style and personality of the hairdresser. This is why we have a wide choice of styling units, with great variety in HPL finishing and plenty of modern colours and patterns. Of course this also applies to the cupboards and display units that can be combined with the styling units. Some of the styling units are available with lighting to create ambiance.

Mood

styling concept

The Mood styling concept is an example of minimalist design. Simplicity and functionality are subtly combined. New is the use of energy efficient LED atmospheric lighting. It lights up the glass panel, and creates a relaxing and futuristic ambiance. A number of width sizes and practical cupboard organizers are available for the reception.

Vibe

styling concept

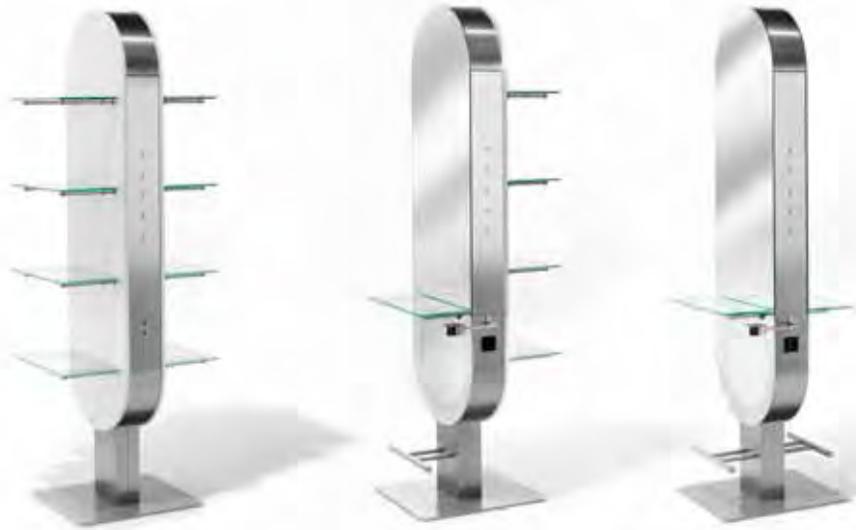

The Vibe styling concept consists of a styling unit, reception and display. Every part has the same design aesthetics and choice of material, thereby enhancing the image. The Vibe styling concept is perfect to combine with the Vibe styling chair.

Studio

styling concept

Characteristic of the Studio styling concept is its capsule shape that recurs throughout the design. With its reception and display, the Studio styling concept is one of the most complete Kiela programmes. For standalone pieces, simply combine styling units and displays.

Park

styling concept

The Park chair and styling unit are part of the Park programme that also includes a display and reception. These are designed in the same modern style. The wood pattern of the styling unit comes back in the chair's arm rest.

Hotspot

Completely different than others... that is the Hotspot! Cheerful rounded shapes, a contemporary white varnished finish and a bright round 'spot'. The brightly coloured light at the bottom of the styling unit gives it a flashy look.

The shelf, just like the light, is available in a number of modern bright colours.

Blue 727

Magenta 4450

Opal 028

Orange 363

Red 433

Vitro

Less is more. This nimble looking styling unit called Vitro subtly contributes to the style look of the salon. The double standalone option offers plenty of storage space and, naturally, comes with sockets.

New Chic

The New Chic styling unit has a large mirror surrounded by a fitted frame, a rectangular glass shelf and a rectangular stainless steel foot rest.

The frame is available in white, black and silver grey.

Baroq

The Baroq styling unit is a stylish combination of modern and classic. In terms of detail, the frame harks back to a period of pomp and ceremony. This exudes extravagance, which contrasts with the modern black or white finish.

Loox

The Loox styling unit stands out for its rich use of materials. The curved shelf gives the styling unit a sleek but friendly appearance. The shelf is available in a range of HPL finishes.

The side supports, just like the foot support, are made of stainless steel. Perforations on the inside of the supports allow light to shine through, if desired.

A hairdryer holder is optional. The Loox is both available as standalone or as a double styling unit with a functional connecting cupboard, which can be supplied with a double socket outlet.

Metro

The timeless design of the Metro styling unit has a big mirror and a wide shelf. This gives the styling unit a luxuriously large appearance.

The stainless steel back panel and foot rest further enhance the appearance of solidity. The design is perfect to play with the colour and pattern choice of the shelf and cupboard.

Space

The Space concept is the example of refined simplicity. Its clean lines give this styling unit a particularly modern look. Space is very practical for space saving. There is an optional pull out cupboard behind the mirror giving extra storage or display space. The concept consists of a wall styling unit, a standalone styling unit and a display unit.

Stainless steel details and reinforced glass for the shelves are recurring elements throughout the programme. There is a wide choice of HPL finishes in modern colours and patterns.

Axis

Axis is a clean and modern design with a focus on versatility and functionality. The styling unit is relatively flat and takes up little space against the wall. The styling unit is particularly solid given the sturdy stainless steel supports, foot rest and shelf supports. The wide choice of patterns for the panel below the mirror give the styling unit its own individual atmosphere and identity. The styling unit can be made into a standalone styling unit simply by inserting a special storage unit.

Slim

Its refined design makes the Slim styling unit particularly suitable for somewhat smaller salons.

The styling unit's frame is made of slim stainless steel tubes.

The shelf is made of reinforced glass.

Slim is a durable styling unit and is also available in a standalone version.

Regent

The Regent styling unit is a robust, durable styling unit. The stainless steel tubing in combination with the full-size mirror gives the unit a sturdy, architectural, appearance. The thick, reinforced glass shelf matches this look perfectly.

Available both as a wall unit and as a standalone version.

additional salon furniture

The styling chairs, styling units and wash units are the most important parts of the salon. But they do not complete the salon. Working stools, trolleys, a reception and waiting area are essential parts of the modern salon. Styling products and cosmetics for sale or storage can be well shown or stored in a display unit or cupboard that fits the design of the salon. When working with chemicals for colour treatments, a 'colour bar' provides a practical solution. Kiela designs and produces all the above mentioned furniture custom-made and in countless finishes.

waiting furniture

Brother/Sister

Waiting in the salon is sometimes unavoidable. It is important that the customer is able to sit comfortably and that the waiting area contributes to the atmosphere and style of the salon.

Zoom

Our waiting benches offer the customers an individual seat and they can be made from a large number of upper chair parts. This enhances the style concept of the salon.

Vibe

Furthermore, a number of waiting benches are fitted with a useful glass separation between the seats. The waiting benches are available with two or with three seats.

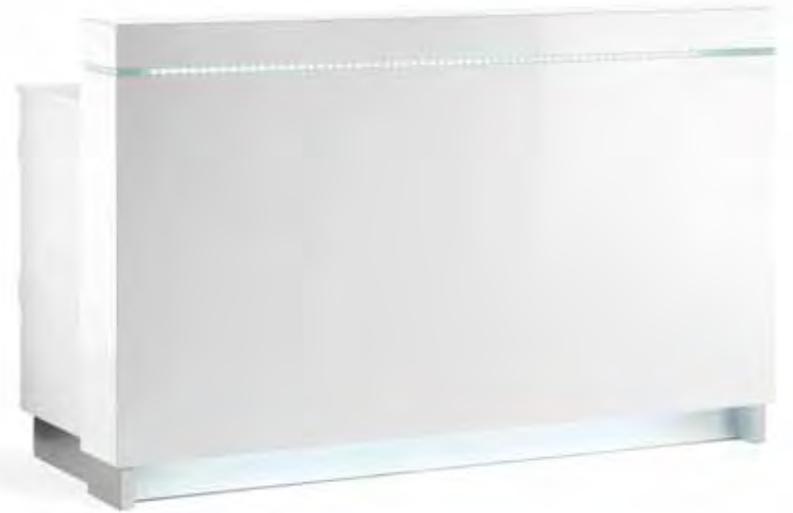

U-Box

It goes without saying that the seating part can be supplied in all the types and colours of artificial leather in our range.

Mood reception

The Mood is witness to a sleek design and is modern and timeless at the same time. New is the use of optional energy efficient LED atmospheric lighting.

The lighting strip on the front gives a distinguished appearance. Various widths and practical cupboard organization options are available for this reception.

Vibe & Studio reception

The Vibe reception is characterized by the curved corners, giving the reception a modern and timeless appearance at the same time. The divider between the middle section and the supports lend themselves perfectly for colour and material combinations. The reception thus has its own look. The Vibe comes in various widths and practical cupboard organization options.

Curved shapes make the modern Studio Reception stand out. The stainless steel supports and the upright glass with metal disc give the reception cachet. For this reception too, various widths and practical cupboard organization options are available. Choose the finish from various colours and patterns.

Stylo

tables

The Stylo table is a timeless side table whose styling and materials perfectly match our styling chairs and styling units.

The foot and stand are made of durable stainless steel, the attractive glass plate is produced in satinato (sanded glass).

Academy

training furniture

Keila has developed a special programme for hairdressing schools. The requirements for this programme are durability and practical applicability. The programme consists of a mobile styling unit with extendible work surface and integrated hairdryer holder, and a stand with practice head.

Academy styling unit

Academy detail

Universal

display program

The Universal display program stands for stylised simplicity. The products stand out in the displays with their clean lines and solid thick dividers. Everything is possible, from a modern white, high gloss finish to a warm wood design. The cupboard rests on a plinth with a brushed aluminium look. The cupboard is available with or without back wall (usable from both sides) and with a hinged glass door.

Extra storage space is always appreciated and useful in a professional working environment. As an addition to the wall styling unit, there is also the Universal cupboard. It is a low cupboard that can be placed next to the styling unit or hung on the wall. It goes without saying that it is available in a wide choice of patterns and colours.

working chairs

saddle stools

The hairdresser's health is vitally important for a salon to perform well. The Jockey, Lady Jockey and Saddle Bike are ergonomically responsible saddle stools and provide the best, upright working posture. It is proven that this decreases the chance of absenteeism.

working chairs and stools

The working stools 380, 391 and 381 are equally good in terms of quality. The seat height can be adjusted easily by using a gas pressure lift. A foot support is also an option. Naturally, the upholstery is available in many colours.

accessories and parts

The contemporary hairdresser is critical and places high demands - rightly so - on his or her working environment. This is why our styling chairs and styling units can be expanded with accessories such as foot rests and hairdryer holders. Equally, various bases are available for our chair upper parts. These can be replaced or added to and are available separately.

photo impressions

We of course like to see our hairdressers furniture in well considered and attractive salon interiors. After all, the salon styling is a reflection of the hairdressers' identity. The interior is the product of creativity, hard work and close collaboration. Your personal taste is the deciding factor, but we are happy to provide advice and be a sparring partner. If required, we can even supply you with an interior architect under no obligation. He or she will provide advice on ergonomics, space organization, routing and, last but not least, colour and styling!
